MEMORANDUM FOR: Director of Finance

SUBJECT : Gold Regulations

1. It can be presumed that a number of overseas employees buy gold or gold coin without knowledge of the legal restrictions and licensing regarding its import, transport, use, etc.

2. It would be desirable to have information on the subject made known to our employees. Rather than issue formal regulation or notice, it would appear that this type of information is more properly an item for the Support Bulletin.

3. It is requested that your Office prepare such an article for the next issue (May 1969) of the Support Bulletin. Attached is a copy of Gold Regulations administered by the U.S. Treasury Department.
